

Workshop Objectives

CODECS organises workshops to share views with focus of creating common understanding and common approaches. C-ITS use-cases rely on short range communication, wide area communication or both of them.

The term “Hybrid Communication” has been introduced in the ITS community in the European Commission C-ITS Platform I report, and is interpreted in different ways. Hybrid Communication has been identified as an important element for the realisation of Traffic Safety and Automation related use cases and applications for the future. At this workshop representatives of the different stakeholder communities will present **their view on Hybrid Communication. During the workshop, Hybrid Communication will further be discussed.**

CODECS intends to collect the different views discussed, compile and consider them and propose a common view. **This common view is expected to be presented as part of the European Commission C-ITS Platform activities.**

About CODECS

CODECS (**CO**operative ITS **DE**ployment **C**oordination **S**upport) acts as nodal point pooling the interests of stakeholders involved in the consecutive C-ITS implementation phases.

It builds up a stakeholder network and through interactive discussion in workshops, webinars and personal interviews, CODECS-partners identify functional approaches, roles & responsibilities, preferred use cases and requirements for strategic decision making.

Out of the consolidated stakeholder needs and priorities, it develops guidelines for initial deployment as well as testing, specification and standardisation in later innovation phases.

Workshop on Hybrid Communication

Public Workshop of the H2020 Coordination & Support Action CODECS

19 May 2017
Aqua Hotel

Rue de Stassart 43, 1050 Brussels

Brussels (Belgium)

This project has received funding from the European Union's Horizon 2020 research and innovation programme under Grant Agreement No 653339.

Friday, 19 May 2017

09.30 Registration & Coffee

10.00 Welcome & Introduction

Paul Spaanderman, *PaulsConsultancy BV*

10.10 European Commission

Geert van der Linden, *European Commission, DG MOVE*

10.30 Volkswagen

Andreas Kwoczek, *Volkswagen AG*

10.50 T-Mobile

Edwin Fischer, *Deutsche Telekom*

11.10 NordicWay

Ilkka Kotilainen, *Project Manager NordicWay*

11.30 Coffee & Networking

12.00 Eco-AT

Marko Jandrisits, *ASFINAG*

12.20 European Automotive Telecom Alliance (EATA)

Luc Jansseune, *ERTICO*

12.40 5G Automotive Association (5GAA)

Markus Dillinger, *Huawei*
Dino Flore, *Qualcomm*

13.00 Lunch & Networking

14.00 Scoop@F

Erwan Broquaire, *Ministry of Transport France*

14.20 Czech Deployment

Martin Volny, *Intens*

14.40 InterCor

Igor Passchier, *TASS International*

15.00 TIMON

Karsten Roscher, *Fraunhofer ESK*
Enrique Onieva, *University of Deusto*

15.20 Summary & Closing

15.40 End of Workshop

Agenda is subject to alterations
